This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. HOW TO USE THE DIRECTORY

When no city is named the address of the alumnus is Chicago.

To find the class and degree of an alumnus consult the alphabetical index.

To find the names of alumni by cities and states consult the geographical index.

The degrees enumerated in this Directory are those conferred prior to July 1, 1910.

Except in the case of Bachelors of Divinity complete information is given only with the highest degree.

The University year runs from July 1 to July 1. Graduates in the Summer Quarter will find themselves classified under the numerals of the following year.

Alumnae who have married since graduation will be found recorded under the name which appears on their diploma. This is followed by the married name. In the indices the married name is given first.

The degree of Bachelor of Education is no longer given for work in the School of Education. The degree of Bachelor of Theology was given only from 1888 to 1892 by the Baptist Union Theological Seminary.

Convenience in reference has governed the arrangement of information. Doctors of Philosophy are classified alphabetically under their departments, the year of graduation being subsidiary to the major subject. The Bachelors, on the other hand, are classified by years. An alphabetical arrangement was found most desirable for Doctors of Law and Bachelors of Laws

HISTORICAL DATA

The present University of Chicago opened on October 1, 1892.

William Rainey Harper began his work as president on July 1, 1891. He died on January 10, 1906. Harry Pratt Judson was chosen president February 20, 1907.

The University was incorporated September 10, 1890. In 1889 Mr. John D. Rockefeller pledged $600,000, provided $400,000 was raised by June 1, 1890, which was done.

The Law School began its work October 1, 1902.

Judge Stephen C. Douglas in 1854 donated ten acres of land north of Thirty-fifth Street and west of Cottage Grove Avenue as the site for the first University of Chicago. This University was incorporated January 30, 1857, and classes met continuously from September, 1858 to 1886.

Jesse Dismukes Burks, '93, now director of the Bureau of Municipal Research of Philadelphia, was the first man to receive a diploma at the hands of President Harper.

The attendance at the University in July, 1910, reached 2,860.

The first building to be erected was Cobb Hall, which was built in 1892 at a cost of $221,956.03.

The "Alma Mater" was written by Edwin H. Lewis, Ph.D., '94, and set to music by Paul Mandeville, Ph.B., '98.

The William Rainey Harper Memorial Library is being built at a cost of nearly $700,000. Contributions to this fund were received from 1,500 alumni. The library will be 248 feet long east to west, and 60 feet north to south, and will have room for one million books.

For the year 1908–1909 the total number of students enrolled for the four quarters of the University year was 5,487, which gave Chicago third place among the universities of the country, Columbia and Harvard only having more. Chicago also ranked second with 441 students in the graduate schools, and first in the number of doctorate degrees conferred. In the number of living alumni, Michigan was first and Chicago twelfth. Out of the total number of 5,695 alumni of the new University of Chicago, only about 100 are deceased.

GEOGRAPHICAL INDEX

When consulting the Geographical Index for the names of residents in large cities like New York and Chicago, it is well to remember that many alumni who have offices there live in adjacent cities and towns. Chicago alumni for instance, will be found in Chicago, Aurora, Austin, Berwyn, Blue Island, Chicago Heights, Chicago Lawn, Clyde, Dunning, Edgewater, Evanston, Glencoe, Glen Ellyn, Harvey, Highland Park, Hinsdale, Kenilworth, La Grange, Maywood, Morgan Park, Oak Park, Pullman, River Forest, Rogers Park, South Chicago, Tinley Park, and Washington Heights.
